Dear Mr Reed

AIRLY MINE – MODIFICATION TO DA 162/91 – EXTENSION TO LAPSE DATE

I refer to the Environmental Assessment (EA) prepared by Centennial Airly Pty Limited titled "*Environmental Assessment, Airly Mine, Extension of Time, Section 75W Modification to development consent DA 162/91*" and dated June 2104.

The EPA is satisfied that the proposed modification, as described in the EA, will not lead to any increased impacts on the existing environment with respect to air, noise and water quality. No variations to the existing Environment Protection Licence for the premises are required.

Accordingly, the EPA supports the proposed modification in its current form.

Should you have any enquiries in relation to this matter please contact Mr Andrew Helms at the Central West (Bathurst) Office of the EPA by telephoning (02) 6332 7604.

Yours sincerely
