Department of Planning and Infrastructure

Dear Sir,

Re: Modification to Development Consent for the Uranquinty Gas-Fired Power Station

Council thanks you for the opportunity to comment on the proposed modification for the Development Consent for the Uranquinty Gas-Fired Power Station to reduce the frequency of stack air emission monitoring.

Council has discussed this matter with the Environmental Protection Authority (EPA) and understands that they will be making a submission into the application. Council supports the EPA submission and has no specific comments of its own.

If you have any other further inquiries in relation to this matter please contact Steven Cook, Senior Town Planner, on 1300 292 442.

Yours sincerely,

Colby Farmer
Manager Development Services
