Re:

DA 119/2019

1 ROSEMEAD RD, MOUNT ERRINGTON
Hornsby

Dear Planners,

I oppose the development application to change the Heritage listed house "MOUNT ERRINGTON" into a school.

The heritage significance will thus be completely lost and unprotected with its ambience, peace and tranquility.

I oppose this application in regard to immense disruptive (most inadequate) changes to parking and added heavy traffic flow continuously daily. The roads around (Dural St, William St and top of Rosemead Rd immediately affected) can handle only residential and visitors movement and usage. As it is drivers/commuters are already parking on these roads (being walk to station) depriving residents of convenient parking spaces.

I oppose this application additionally to the environmental impact this will have on the SATIN BOWERBIRDS that reside in the treed vegetation on Mount Errington. The presence and activities of the number of children will inevitably disturb the natural habitat these unique/beautiful birds call home.

Have you had the joy and delight of watching/seeing a live BOWERBIRD and its bower except in pictures??

(Please note photo of Bowerbird sitting on Mt Errington fence enclosed)

Yours faithfully,
Juliana Wells
