Dear Director

re: Sydney Football Stadium Modification 6.
Your Application NO: SSD-9249-Mod. 6.
(Attached)

I opposed the first Application with a strong submission on the existing Stadium's perfect adequacy; on how it was usually half-full and therefore a total waste of taxpayer and ratepayer money. I also wrote some complaints, again, wasting my time, most particularly on the illicit all night work for six days in January 2019. Rude responses of denial, particularly since this illicit work, was an obvious snub at the thousands of voters (N.B.) in opposition to a white elephant just before the State Election. Moreover, then Minister A. Roberts refused to answer my polite questions.

Now, as night follows evil days again, after many public objections to tree felling and constant noise like vast new electricity pipes all down Regents into Moore Park Rd to feed the beast, your 6th Change wants to encroach further on publicly-owned land: not in the hands of this NSW government in legal terms.

Therefore, I strongly object on the above grounds and clearly a lack of any foresight.

As for "political donations" who decides that? A 35 year resident two streets up who donates to the Anthonian Institute and decent causes.

Yours faithfully
