Dear Ms Watson

Thank you for your letter to Grant Greene-Smith dated 30 May 2017 regarding the development submission for Martin Place Station Precinct (SSD 8351). Your correspondence was referred to me for reply.

Ausgrid is committed to maintaining a close working relationship with Transport for NSW to work towards successful project outcomes for the Sydney Metro Project, as well as providing for the safe operation of the Ausgrid electrical network.

Ausgrid has established a Sydney Metro project team to provide a single point of contact to coordinate and facilitate all project works requiring Ausgrid input. The Ausgrid team is currently engaged with Transport for NSW staff and has been involved in discussions with Macquarie Corporate Holdings regarding their proposal.

Ausgrid has specifically reviewed Section 8 of Appendix E 'Utility Services Infrastructure Assessment' of the submission and notes that the proposed treatment of existing Ausgrid assets and proposed new connections will be subject to formal application by the proponent via Ausgrid's contestable works process.

Ausgrid looks forward to receiving those applications to progress the proposal should consent be granted. We have no further comment to make regarding the proposal or conditions of consent.

Any enquiries regarding the Sydney Metro project may be directed to our Major Project Services Group, Sydney Metro Project Director, Jason Wall on 02 9269 7133 / 0414 192 495; jwall@ausgrid.com.au.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Brett Hooper", is written over a light blue horizontal line.

Brett Hooper
