Precinct*

Application Number SSD-17424905

I have not made any reportable political donations in the previous two years.

I object to the Grey House Precinct development.

The Grey House Precinct will have 4 additional classrooms from Year 5 and 6 students for 94 new students and 4 additional staff. The new ELC will add 90 children and 15 staff. The total school population increase from the junior school and ELC alone is 203 based on the information provided by the school.

The figures provided by the school in their past EIS are always less than the actual population increase after the approval of the EIS, or the completion of the construction. This indicates the college population increase in connection with this project is probably understated.

There is no model provided for the future impact assessment for the traffic and parking for surrounding streets for the increase of the school population post development.
