

TransGrid Reference Number: 2021-616

Proposal: Notice of Exhibition – Eraring Battery Energy Storage System (SSD-15950052)

I noticed this one in the In box: FYI

Confirming, I have recently requested a landowner consent letter for the proponent by ETMHC as per attached email confirmation from the Lumea Program Manager (Elissa Jane). To this end, a copy of the EIS has been provided relating to the consent as per attached for reference.

As confirmed on the attached email, Lumea is currently working with the customer to scope the connection works in order to provide an Offer to Connect and establish a connection agreement for this project.

Therefore, no further comments are required from a Property perspective as the facility will connect into the TransGrid's Eraring 500kV Substation site only.

Regards

Michael
