Dear Mr Copas

Re: Notice of Exhibition – SSD 6917 – Oakdale South Industrial Estate, Erskine Park.

Thank you for the opportunity to provide advice on the above matter. This is a response from NSW Department of Industry – Geological Survey of New South Wales (GSNSW).

General Information

GSNSW provided advice in relation to SEARs for the above proposal in February 2015 (Our reference OUT15/2611) where we advised that consultation should occur with the operator of Mining Lease (ML) 1636 - PGH Horsley Park Clay Mine (operated by CSR Building Products Ltd). GSNSW notes that potential mineral resource issues have been addressed within the EIS and discussions with PGH regarding key issues and consideration for the proposal have been undertaken.

Geoscience Information Services

The GSNSW has a range of online data available on line through the following website address:

<http://www.resources.nsw.gov.au/geological/online-services>

This site hosts a range of data to enable research into exploration, land use and general geoscience topics. Additionally, the location of exploration and mining titles in NSW may be accessed by the general public using the following online utilities:

1. **MinView** allows on-line interactive display and query of exploration tenement information and geoscience data. It allows spatial selection, display and download of geological coverages, mineral deposits and mine locations, geophysical survey boundaries, drillhole locations, historical and current exploration title boundaries and other spatial datasets of New South Wales. This online service is available at:
