RE BARANGAROO PARKING SPACE INCREASE

224.8.15

The Director of planning and environment

Dear Sir,

It is with great disappointment that I write to ask that the increase of extra parking spaces be refused by government. The traffic situation in Kent St is already causing major delays in the evening peak.

As you know, there is one lane south and one lane north. There is a traffic jam on Kent St nightly.

It is ridiculous to push more cars onto this street. It is also a terrible mistake to take the view from Observatory Hill. This hill is a public place and to have these views interrupted for a casino is certainly not acceptable to the public who really own this land.

The casino is on land earmarked for the people of Sydney and visitors to enjoy, it should not be used for a casino. It does not fit with the area and the site was promised to the people not overseas tourists coming here to gamble. We have a casino in Sydney, this is sufficient.

The sincere wish of the people of this area is for all to enjoy in a peaceful environment and for the workers who need to drive home, to do so without a nightly traffic jam.

Thankyou for taking the time to read my letter. Barbara Jones
