Comment

For many years cars park in front of driveways on the residential side of William Street sometimes they park there the whole day having a lot more people looking for parking could become much worse than it is now not all people would use Community Health Centre carpark.
Also the increase of traffic along a already busy road being a industrial and a Community school on William street which runs all hours.
One thing I am not sure about will there be a righthand turn from William Street on to Pittwater Road that will cause more traffic of cars coming from Harbord road to turn right at William street to Pittwater Road.
I would like to know how these issues will be addressed.
