

FRIENDS OF DARLINGTON EUCALYPT GROVE

Mon 25 August 2014

To: Peter McManus NSW Department of Planning and Infrastructure

By email: < peter.mcmanus@planning.nsw.gov.au>

Dear sir,

Re: Residents' petition objecting to Sydney University Campus Improvement Program - State Significant Development 6123 - proposed removal of eucalypt grove (tallowwoods) from the engineering precinct car park opposite Shepherd Street near Calder Road Darlington and erection of a new building on the site.

I am forwarding a copy of a petition signed by 146 residents of Darlington. The petition is addressed to the University of Sydney but this copy is forwarded to the NSW Department of Planning and Infrastructure as a submission and objection to the above proposed development.

The sponsors of the petition will be seeking a meeting with Sydney University's Vice Chancellor in order to present the petition to him personally.

The sponsors are Susannah Dale, Suzanne Haigh, Mary Hanson, Michael Iverarch, Georgia Ovenden and Peter Prineas.

Yours sincerely,

Peter Prineas

For Friends of Darlington Eucalypt Grove

PETITION TO UNIVERSITY OF SYDNEY TO SAVE THE DARLINGTON EUCALYPT GROVE

To Dr Michael Spence Vice-Chancellor, and the Senate, of the University of Sydney.

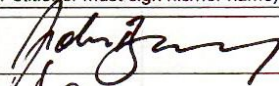

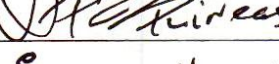

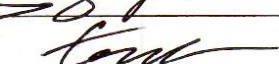

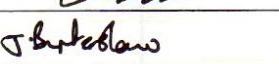

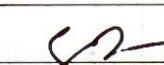

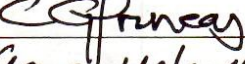

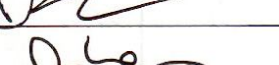

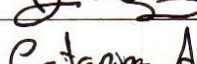

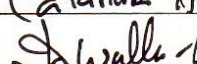

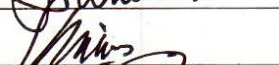

The undersigned residents and friends of Darlington are concerned at over-development proposed in the University's 'Campus Improvement Program'. We specifically request the University not to destroy 19 native eucalypt trees growing on the parking area near the corner of Calder Road and Shepherd Street to make way for a new building on the site.

1. About 18 years ago the University established this grove of eucalypts (believed to be tallwoods) to soften the impact of the university buildings overlooking residential neighbours in Darlington.
2. This eucalypt grove has very significant aesthetic values and is an increasingly important refuge for native birds and other wildlife.
3. This eucalypt grove, with the green hedge along the boundary, provides the only substantial greenery left along the university's side of Shepherd Street.
4. Sydney University should green the boundary between its buildings and its neighbours – not destroy a significant part of the tree canopy and replace it with buildings that overlook resident's homes
5. If the University really needs more floor space on its Darlington campus it should look at other sites and different approaches. Other sites and different approaches are available.
6. The University's Ecological Assessment by Australian Museum Consulting states -
Recommendations: Avoid removal of mature trees and protection of trees in proximity to building/refurbishment sites. Minimise loss of open space."
The University should not disregard this recommendation.

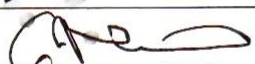

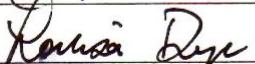

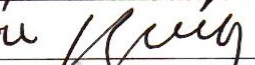

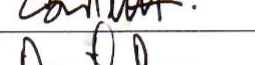

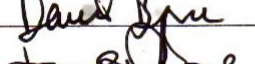

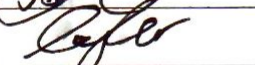

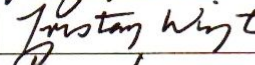

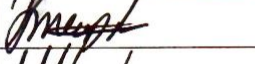

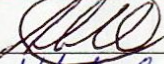

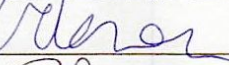

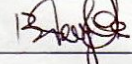

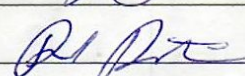

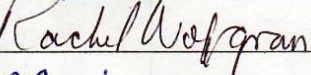

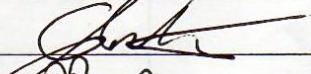

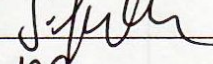

This petition will be presented to the University of Sydney by residents of Darlington. Please support the petition by adding your name and by asking your neighbours and friends to add theirs also. Please return the completed petition to Peter at 32 Calder Road Darlington 0429 322 857.
