OBJECTION TO PROPOSAL WALLARAH 2 COAL PROJECT APPLICATION NO. SSD-4974

Dear Sir/Madam,

We are formally writing to address our objections to the above proposal for coal mining in our area. Our property lies in Wyong LGA catchment area and the proposal will reduce the water provided to service our community. Furthermore, there are no guarantees that our land will not be subjected to subsidence and at serious possible risk of decreasing land value and use.

We object to the proposal and do so with full confidence that this project would cause long term damage to the Central Coast's water, infrastructure, amenities and health.

Sincerely,

Paul BORG

Victoria BORG
