Petition in Support for the Wallarah No. 2 Coal Project

Dear Clay

Our Club wishes to submit the attached petition containing signatures of many of our patrons who attend various activities run by our Club, some of which would not be able to be held without the support of Wallarah N.o.2 Coal.

The patrons who have signed are aware the contributions and support given to our Club and other community based organisations by Wallarah N.o.2 as described in the covering letter of the petition which is also attached.

All signatories were also aware of the nature and proposed activities of Wallarah N.o.2, being a underground mining operation. They were also aware of the extensive research and exploration of the proposed mining site by Wallarah N.o.2, at the time of their signing the petition. The general consensus is that the benefits far outweigh any negatives with the community of the Central Coast the winners with increase employment opportunities, local economical growth and support to community organisations such as The Central Coast Poultry Club.

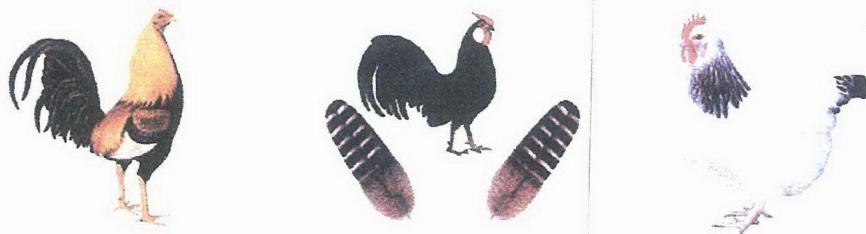

Your consideration of the attached petition in your assessment of the Wallarah N.o. 2 Coal Project would be greatly appreciated.

Yours Faithfully

David Gaggin (Public Officer)

Department of Planning

CENTRAL COAST POULTRY CLUB Inc

Established 1980

Letter of Support for the Wallarah 2 Coal Project

The Central Coast Poultry Club proudly supports the Wallarah 2 Project, a mining proposal which will see the commencement of underground mining operations in Northern Wyong Shire.

Our position was an informed decision based on the investigation of the facts by our 110 members, who voted unanimously to accept Wallarah 2 Coal Project offer of support.

The Wallarah 2 Coal Project generously provides Central Coast Poultry Club with facilities to run our meetings and auctions and is also giving back to our local community through a number of funding projects and initiatives.

The Wallarah 2 Coal Project has signed Memorandums of understanding with Central Coast Group Training and Hunter TAFE Institute to foster local job creation through apprenticeships and training opportunities, which will significantly bolster the local economy.

Its *Community Foundation* will provide important funding to a number of local organisations and groups in 2013 by supporting initiatives that will benefit the environment, community wellbeing and local education opportunities.

We, the undersigned support local job creation, opportunity for small business and community engagement and sign this letter to support the Wallarah 2 Coal Project.
