I am writing on behalf of the Precinct and all residents of the Central Coast in voicing our disappointment over the Kooras mining being able to re-submit a new application. This is a broken promise by the State Government as an election promise to the people of the Central Coast was that he would honour (in 2011 by) the then Planning Minister's decision to reject the mining plan, his own words being "no if no Buts" he would ban Korean-owned mining giant?

In all the meetings we have had when this raises it's head we have been told by Chris Hartzer MP and Darren Webster MP is that the mine would not go ahead. You all ask us to put trust in you, our government but how can we.

If this mine was to go ahead it puts at risks our homes and their value, our water, our health our amenities, our lifestyle and the bio diversity of the region.

I am sending a copy of this letter to all parties mentioned in this letter and also a copy to Jill Hall M.P.R.

Our last and final concern is the amount of water 79 millions litres of groundwater a day's to run Kooras Muri is more than the area's rainfall and as we have had insufficient water on the Central Coast for some time now. As the Central Coast is fast becoming a developing area for new homes, water will become our biggest threat. As residents of the Central Coast we would like to make a stand against the Kooras Muri.

I Remain
Yours Sincerely
Gwen Gekan
Sec & P.R.
