BLUE HAVEN

Please stop this
madness it is a
matter of great urgency

+ + +
P!

The Pollution in Blue Haven is so bad now
I would hate to see what it would be like
if this Wallarah 2 project goes ahead
people will die and I shudder to think
about our water you can't drink it now
it might create jobs but people's lives
are more important, these money hungry
people could not give two dams about us
tell them to go back where they come from
