Dear Sir

I wish to submit my opposition to the Wallarah 2 Coal Project SSD4974 Amended Development Application.

I have grave fears over many of the proposals, including subsidence, ventilation shafts, open conveyor belts, water quality in the catchment area and the loading facility at Blue Haven.

Would you please reconsider this proposal and accept the very real concerns of the local community about the damage that could be done to the environment if this goes ahead. Please take the concerns of the community into your considerations and abandon this project.

Yours faithfully,
