Dear Sir/Madam

**Wallarah 2 Coal Mine – Amendment to Development Application SSD-4974 (the amended DA)  
lodged for the Wyong Areas Coal Joint Venture (WACJV) on 7 July 2016**

I refer to the above application and wish to lodge my objection to the proposal on the grounds detailed below:

**Noise & Dust**

1. The Amended DA shows the day time noise levels for Bushells Road Residential Sites as ranging between 40-50dBA for both daytime and night time noise levels. The Amended DA states that at a Bushells Ridge Road residence (receptor), has predicted levels that exceed the PSNC by up to 4dBA.
2. Page vi of the Amended DA recognises that mitigation is required for single residence (receptor P16), and that the proponent "*will consult with these landowners and offer to apply appropriate acoustic treatments in accordance with the Voluntary Land Acquisition and Mitigation Policy for State Significant Mining, Petroleum and Extractive Industry Developments (NSW Government, 2014).*" No similar consideration is made for any other properties, including those located in nearby Blue Haven.
3. The Amended DA offers no solution for the unsatisfactory noise levels that will be generated for people on adjoining land outside their homes or to the amenity of their land generally.

**Further Considerations**

I believe the noise and dust will be  
detrimental to the communities health  
which could lead to long term ~~health~~  
chronic health issues or worse.

Yours sincerely

C Davison
