

1 September 2016

The Director  
Mining Projects  
Department of Planning & Infrastructure  
GPO Box 39  
Sydney NSW 2001

Dear Sir/Madam

**Wallarah 2 Coal Mine – Amendment to Development Application SSD-4974 (the amended DA)  
lodged for the Wyong Areas Coal Joint Venture (WACJV) on 7 July 2016**

I refer to the above application and wish to lodge my objection to the proposal on the grounds detailed below:

**ABSENCE OF WATER CONTROL MEASURES**

1. The infrastructure to be placed on Nikko Rd is adjacent to Spring Creek. The Amended DA does not address the risk of pollution to Spring Creek arising from the washing of coal, grease or oil into Spring Creek.
2. The Amended DA contains no detail on the location or design of water quality control devices presumably required within the Nikko Road, adjacent to the coal loading infrastructure, to ensure any stormwater or other run-off generated with the development ( e.g. dust suppressant system) does not impact on nearby waterways.

**Further Considerations**

---

The dangers of not addressing the impact that this coal mine will have impacting polluting Spring Creek – and the ongoing effects that this will have on our water sources is of particular concern to me.

---

Yours sincerely

Corinne Hodson  
11 Longs Road  
Bateau Bay NSW 2261
