Rachel Annett
46 Menindee Ave
Blue Haven 2262

Dear Sir/Madam

**Wallarah 2 Coal Mine – Amendment to Development Application SSD-4974 (the amended DA)
lodged for the Wyong Areas Coal Joint Venture (WACJV) on 7 July 2016**

I refer to the above application and wish to lodge my objection to the proposal on the grounds detailed below:

ABSENCE OF WATER CONTROL MEASURES

1. The infrastructure to be placed on Nikko Rd is adjacent to Spring Creek. The Amended DA does not address the risk of pollution to Spring Creek arising from the washing of coal, grease or oil into Spring Creek.
2. The Amended DA contains no detail on the location or design of water quality control devices presumably required within the Nikko Road, adjacent to the coal loading infrastructure, to ensure any stormwater or other run-off generated with the development (e.g. dust suppressant system) does not impact on nearby waterways.

Further Considerations

I have a small newborn baby
and in addition to above, do not
want this to go ahead. It's
disgraceful that the government can
allow this to go ahead with so
many negative impacts to our health
and wellbeing.

Yours sincerely

R Annett
