Wallarah 2 Coal Project SSD 4974 Amended Development Application

I wish to object to the current ADA on exhibition and also to the further progression of the mine proposal itself.

I have resided in the Dooralong Valley for over 20 years now, and as a keen horse rider I feel I know the valley and it's inhabitants quite well. We have platypus breeding up Little Jilliby Jilliby Creek every Spring, Aboriginal middens, echidna, goannas, abundant birdlife, wallabies and 'roos all enjoying this foot of the Watagan Forest.

The impact of a coal mine this size would have a devastating effect on all our wildlife and the water tables within this valley.

Please consider future generations before deciding coal mining is a positive for our community and environs.

This, surely, is not the way of the future.

Yours Sincerely

Carolyn Huntley
