**Subject:** Fwd: Wallarah 2 Coal Project SSD 4974 Amended Development Application

Dear Ministers, for your perusal, please find my submission below in relation to the Wallarah 2 Coal Project.

Yours faithfully, Beryn Jewson, Kanwal 2259

Walarah 2 Coal Project SSD 4974 Amended Development Application

I object to the Amended Development Application for the Wallarah 2 coal mine. The amended application does not prevent the fact that the Central Coast's water supply would be compromised. Nor does it prevent the fact that the people in the suburbs along, and beyond, the coal rail line would have to breathe the coal dust from this mine for 28 years.

That the mine is opposed by the Central Coast Water Corporation should be enough for the PAC to reject this mine.

There would appear to be a determination by the Baird Government to make this mine possible. How generous of NSW Roads and Maritime Services to help get around the Darkinjung block!

I am amazed this project is still being put forward. The Baird Government should be ashamed to allow the possibility that the Central Coast's water supply could be compromised, or think it's ok for the people in the suburbs along the coal line to breathe the coal dust. Maybe they think it's ok for the suburbs in a Labor or low socio-economic electorate? One also has to wonder if the Federal Government's "water trigger" would be applied considering which electorates would be affected.

I not only object to the project, I object to having to spend my time making a submission again. This project shouldn't even be on the table. Labor knocked it back in 2011. The Baird Government are way behind the times, using the PAC under the guise of independence, when the whole process is geared in favour of mining approvals. Even now in the mining bust.

Maybe Nathan Tinkler can buy the mine from the Korean Government if the PAC approves it.

Yours faithfully

Beryn Jewson
