Generally, what direction does most of the max speed winds (high/extreme) come from?																
	0	0	0	0	0	0	2	2	8	5	0	1	1	1	0	0

White	NIL	That direction never registered as a maximum speed wind.	
Green	NEG	40km and below	
Yellow	LOW	40-60	
Orange	MED	60-75	
Red	HIGH	75-87	Gale force is between 63 & 87 km per hour
Black	EXTREME	88+
