Moss Vale Plastics Recycling Facility
SDD – 9409987
Date 20-3-2022

I object to the proposed development of Moss Vale Plastics Recycling Facility

The reasons why I object to the proposal are:

- It's less than 2km from the town centre of Moss Vale.
- Less than 200m from the first residence.
- No access from the Hume Highway to the site is suitable.
- Incase of an emergency no easy access to site.
- No buffer zone for air quality, odour, noise and vibration.
- Traffic impact assessment was taken during covid lockdown.
- Increased traffic on local roads which poses safety risk for locals residents and road users.
- The land has 2 incompatible zones, conservation and general industrial.
- No clear indication on what will happen with the waste from the facility.
- Proposing to pump 16,000L of contaminated water into our overloaded sewage system a day.
