I am the [Redacted] to the site. I object to this proposal.

I object based on the noise, traffic, smell, hours, health risk and dust that will leave the site and impact on my family home.

My home [Redacted] to the site. As I sit on my veranda during the day having a cup of tea I can actually hear the workers near that site laughing and talking which is fine. But can you imagine how much noise I will hear if this is approved? I already feel vibrations from similar sites, I object to having a machine operate 6-7 days a week that is designed to shake and vibrate! I DO NOT WANT TO FEEL ANY VIBRATIONS IN MY HOME FROM THEIR MACHINERY.

[Redacted] to the site. I do not want to be impacted in any way from having such as facility built so [Redacted] I like to sit on my veranda and look at the trees in the peace and quiet. If this goes ahead, when will I get to have my quiet time at my home?

I understand this facility has to go somewhere, but it is too close my house.

Also a real-estate agent has already put it in writing that my house value would drop if this facility went ahead. I expect to be compensated for my loss if Benedict moves in and devalues my house.

Please understand how stressful this has already been on me and my family just trying to stop this application. Can you please understand how stressful this will be if this facility is approved? I can hardly bring myself to imagine it, as it makes me feel such a social injustice that would affect my well-being on an hourly and daily basis.

Please do not approve this Waste Resource Recovery Facility so close to my home.

[Redacted] Redacted

Objection to Resource Recovery Facility at 52 Anderson Road, Smeaton Grange

SSD 7424

In addition to my previous objection dated 24th August, I would like to add this photo.
[Redacted] from 52 Anderson Road Smeaton Grange.

This facility will be too close to my home and it will impact on our family.
