Dear Mr Hazzard,

I urge you to read James Hansen's book 'Storms of my Grandchildren'. I understand that the government needs to work with the mining industry, but it is possible for companies to make money without necessarily harming environmental systems or human health. There is strong evidence that coal mining does both these things, and on multiple grounds one can argue for a shift to other means of power generation within our lifetime.

I declare that I have not made a reportable political donation.

Yours sincerely, Hugh Burley Sydney NSW 2021, Australia
