Content:  
 Dear Sir,

I wish to record my and my family's absolute objection to the Rocky Hill Coal Project in the beautiful and productive rural area around Gloucester.

I am also horrified to read that there is also a proposal to approve coal seam gas mining in the Waukivory area near Gloucester.

I would like to know if you have personally visited Gloucester and whether you are totally aware of the impact such projects have not only on the land and the people there, but also on the precious water supply.

Does the mining 'lobby' have so much influence on the government that they are 'blinded' to common sense and the need to preserve our environment for future generations?

Does the desire for a 'quick buck' take precedence over everything else?

I hope you take notice of the submissions which I am sure you will receive from many in the Gloucester and nearby communities.

Yours sincerely

Brian Bartlett
