Address:  
33 Beatties Island Rd.

Tugabakh, NSW  
2422

**Content:**

Since there is already a mining operation south of Gloucester (which won extended trading hours), and AGL is soon to start the first phase of its CSG drilling, this small community with prime land for agricultural production does not need another mine, even closer to town. The cumulative effect of ALL of these extractive businesses will have a detrimental impact on our ground water, air quality (because of the topographic peculiarity of this valley), and on the aesthetics of our region for tourism.

I urge the Planning NSW -- even under a Liberal government -- not to approve this project.
