NOTE These are Dept of Planning MANDATORY fields.

My NAME is:

My Full ADDRESS is:

Dear Sir, I HAVE WORKED IN MINING FOR MANY YEARS. AS WELL AS AGL. As a contractor, client, land owner consultant, Yes there are no jobs and that's what we need, but take a look at Singleton now, mudgie is booming but only for a few more years, you guys don't monitor dust properly you just pay the fines to the EPA you have to run a business I understand that. JUST DON'T TRY AND LIE TO LOCALS IT WON'T START WELL! I believe the best you guys could do would be to do more for the town and eventually they will come round, for example... Dungog, movies, film festivals, music festivals, enduro state championships. bring more to the town than Gloucester coal does. Gloucester= nothing.

Proximity – The mine boundary will be situated 900metres from Forbesdale Residential Estate of 35 families. Those families will experience unacceptable levels of noise, dust, and traffic. They have already lost their peaceful, rural lifestyle with this threat. Many have chosen not to improve their homes because they no longer have any value.

No one wants to live next door to an open-cut coal mine. Especially hearing a dozer push after a blast! Do more homework guys you haven't got the people to turn yet. Maybe upgrade buckets way with first 3 years profits, even if its only 20 percent!

Hope it helps would love a reply

Yours sincerely, Jack Campbell Newcastle NSW 2305, Australia
