Department of Planning & Infrastructure
GPO Box 39, Sydney NSW 2001

Dear Sir,

Submission to Proposed Rocky Hill Coal Project – SSD-5156

I wish to make a submission to the proposed Rocky Hill Coal project SSD-5156.

I wish to demonstrate my support for the project and site the following reasons as to why the Department should look favourably on this project for the benefit of Gloucester and New South Wales.

1. The Gloucester community is doing it tough having lost the forestry and timber industry, the local dairy company has closed & many dairies have ceased production. Many local shopkeepers have closed and enrolments at schools have declined.
2. The mine will create jobs and create many flow on benefits for the community. New families will boost numbers at the school and increase business in town.

I am not required to make a reportable political donation.

I have read the Department's privacy Statement and agree to the Department using my submission in the ways it describes. I understand this includes full publication on the Department's website of my submission, any attachments and any of my personal information in these documents, and possible supply to third parties such as state agencies, local government and the proponent. I do / do not wish to have my personal information published with my submission

I am an ex Gloucester resident having lived and worked in the town for 20 years. It is a very special little town and needs mining to benefit & sustain the town

Name *P.M. White*
