

Gloucester. 23rd Oct. 2013

The Director,
Mining project Development ass.
Rocky Hill Coal Project
Gloucester 2422 NSW.

Dear Sir,

I oppose sternly Rocky Hill Coal open cut mine.

My name is Annie Van Breukelen. I am living
appr. 2 km from the centre of this proposed mine, along
the railway with its track less than 400 meter of my
heat fence. I have been a Gloucester resident from 1976
till 1988 & after an absence of 20 years to the gold coast
where my husband passed away, returned to Gloucester in
2007. This time withing 2 years confronted with the possi-
bility of an open cut coal mine. Apart from learning
about technical, environmental is low estimation of the
population & every human, physical, psychological & visibly
suffering is completely ignored & shunned over by
promises & images. I am an elderly now, not looking
forward to a situation where dust/noise/light
transport, health threatening etc etc can be a future
most important to growing up youngsters, if this is
allowed & wonder for those who carry this responsi-
bility on their neck, may feel a mental debate
by the time they live to an age as I have now.

To oppose is my only answer.

Sincerely,

Annie Breukelen.
