ROCKY HILL COAL PROJECT – APPLICATION No. SSD 5156

I oppose the Rocky Hill Coal Mine for the following reasons:

1. The Coal Dust & mining particles emanating from the project over a period of time will result in significant health and asthma problems to the vulnerable of the community.
2. The mine and surrounds will alter and change the beautiful physical environment of the area. We only have to view the mining at Stroud.
3. Tourism, agricultural and lifestyle will suffer as result of mining activities in the area over the number of years.
4. Coal mining is only a short term goal why doesn't the powers to be look to a more sustainable avenue that Gloucester would look forward to and local industry can prosper and grow.
