Rocky Hill Coal Project – Application No SSD-5156

Dear Sir/Madam

I oppose the Rocky Hill Coal Project and the modification to the Stratford Coal Extension Project.

Many countries around the world are striving for a cleaner greener environment. Australia should be doing the same. We should be seen as leaders in renewable energies rather than leaders in fossil fuel polluters. It doesn't matter whether we burn it or sell it overseas the end result is the same.

Furthermore, the Gloucester area has many wonders of nature. Pristine waterways with abundant wildlife, including the platypus. Magnificent agricultural land which has the capacity to provide food for an indefinite period of time. A thriving tourist destination and the doorway to world renown Barrington Tops. All this and more will be risked if the Rocky Hill Project goes ahead.

I look forward to your response.

Sincerely

Jeffrey French
