Project No.: SSD 5156

Dear Sir/Madam

I support the Rocky Hill Coal Project going ahead because:

As a former worker in the Gloucester mines it not only stimulates growth within the community it helps local businesses with income and help keep local people in employment. Without this industry many people would be struggling to find a job.

The more jobs in the area creates more spending in the local community. I know the mines do there best to impact the environment as least as possible. I feel this mine would bring a new lease on life for everyone concerned in the area.

I have / have not made any reportable political donations in the past two years (please circle one)

Yours sincerely,
