Rocky Hill Coal Project – Application No SSD-5156
Stratford Coal Extension Project No. SSD 4966 MOD1

Dear Sir/Madam

I oppose the Rocky Hill Coal Project and the modification to the Stratford Coal Extension Project.

I am a Gloucester resident. My husband and I settled here 30 years ago, worked hard to establish a business and raised 6 children, all of whom work in industries other than coal mining. This mine is too close to our town and for ALL the obvious reasons should be opposed. We have much to offer in our beautiful environment, thriving tourism industry, dairy, beef and horticulture industries, incredible biodiversity and expanding population, all of which GRL have failed to address in their amended EIS.

Intelligent people are tired of listening to the same old rubbish that spews out of mining lobbyists, government bodies, coal companies and a handful of mindless twits in our town.

Australia is failing to address the climate action agenda and continues to fall back on an industry that is now no longer needed or welcome. Please tell GRL to pack up and go home, Gloucester is tired of division and hate in our community created by the extractive industries and the NSW government.

I have not made a reportable political donation.

Thank You
