Message:

Premier, I have twice tried to submit an objection to this mine on the appropriate site....It is nigh on impossible... therefore I am sending my letter to you, hoping that someone in your department can lodge it for me.

Thank you.

""Dear sir,

For over six decades, I have visited the Hunter Valley. Sometimes, just passing through, maybe stopping at Wollombi for 'Dr Jurd's'..... sometimes lingering at luscious green paddocks to admire magnificent horses... often to sip a wine or two or three at one of the boutique wineries.

This valley, over the decades, has generated billions of dollars in both domestic and foreign investment, with the basis of these industries based on the quality of the environment....but times are changing.....aerial views of the Hunter now glow grey, not green.... and investors, visitors and even residents are responding with eyes askance, all looking in other areas for 'greener' pastures.

The choice for the NSW government to allow the continual degradation of this area at the expense of the once magnificent landscape is short sighted and irresponsible.

To permit a mine to be developed or expanded within a town's environs, I consider an act of treachery.

Gloucester's residents rely on their representatives to lead them into a safe and sustainable future.....not step back into a deep black hole. Gloucester is a strong and determined community.They are aware, knowledgeable and will not be quietened...and their support is strong and widespread.

Yours in anticipation of a reversal of approval

Helen Badger"

I would like a response: Yes, I would like a response

I would like to receive regular updates from the NSW Government: No
