Attention: Director – Resources and Energy

Project Name: Rocky Hill Coal Project
Project No.: SSD 5156

Dear Sir/Madam

I support the Rocky Hill Coal Project going ahead because it will:

I ~~have~~/have not made any reportable political donations in the past two years

Yours sincerely

As a local who has worked - still working in the Beef Cattle Industry I have watched the demise of our Dairy Industry. The Timber Industry Beef Cattle for the first time in years is good but for how long? (Seasonal)

Tourism does nothing for my bank Balance
(Where does our council get its figures from)

Coal came to our town did good things for our town & district jobwise & economically ask some of Business they would not survive on the farmers in our district (seasonal Conditionals affect farmers spending)

Because of the Intimidation of Protesters & Knitting Nanna's it is Best not to Publically support Mines Gas or the New Mine But I feel the Mine has addressed all Environmental Issues

The Majority of Protesters & Knitting Nanna's do not live in this Town being Local we have Lived through the downturn in our towns Economy & Jobs by driving these Industries away they are killing our town & District we will not Survive on Tourism

Give it the go ahead for our town & Districts future : Coal & Agriculture can co-exist its been Proven

Dear Sir/Madam

I support the Rocky Hill Coal Project going ahead because it will:

I have/have not made any reportable political donations in the past two years

Yours sincerely

As a local resident all my life I worked as a Dairy farmer for 43 yrs untill government Decisions stuffed the Industry our town went from 100's of Dairy farmers to less than 15 today, have seen the same done to the Timber Industry when government bowed down to the Greens Our Town was almost stuffed untill Coal came to Gloucester which was the greatest Boost to the town workwise & economically.

I am now sick & tired of Protesters (kind) dole Bludgers & Knitting Nanna's wandering our streets & Parks claiming they represent the local community & Intimidating us if we support Industry & commercial Projects for our town.

Our x council supported too many green decisions which supports all of these Protesters & Knitting Nanna's not the locals who pay rates.

Give the Mine the go ahead to give our town & District a future Jobwise & Economically. The mine Application has ticked all the Boxes give it the go ahead for the future of Gloucester.
