Project Name: Rocky Hill Coal Project
Project No.: SSD 5156

Dear Sir/Madam

I support the Rocky Hill Coal Project going ahead because it will:

achieve a sustainable outcome for the local and wider environment. There is a low risk of adverse environmental outcomes but yet definite positive economic and social benefits for the local & regional communities for the state and Commonwealth. The geology of the Gloucester Basin means that it will never become dominated by mining, it will always be small scale by coal mine standards. The mine will also provide education opportunities and help youth to stay in local area.

I have not made any reportable political donations in the past two years

Yours sincerely,

Michael Haugh
