SUBMISSION FOR THE ROCKY HILL COAL PROJECT - APP #

STAFFORD COAL EXTENSION PROJECT

SSD-5156

-APP # SSD-4966 MOD1

DEAR Sir/Madam

I oppose the Rocky Hill Coal Project and the
Stafford Mine modification.

I have been visitor to this area for last 16 years
and disappoints me greatly that these projects
are going to destroy the beauty & scenery of
this place.

These projects have the capacity to create
possible dust, rehabilitation, and the healthy
environment. I have come to this place
to find peace, relaxation and breath clean
air, including having a family holiday.
These projects undermines the tourism
capacity of the area and will not
enhance its beauty, peace and interest
in local population life quality.

Any action allowing destruction of the
such community environment is blatant
disrespect of the local people's right to
a calm, peaceful and healthy existence.

I strongly oppose any such development
any government or political party
would impose on its constituents.

Kind Regards,

Timmy Ayon (I have never made political
donation.)
