SYDNEY NSW 2001

Dear Sir/Madam,

SUBJECT : WINDSOR BRIDGE REPLACEMENT

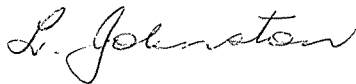

At the last meeting of the above Association held on 3rd December, 2012 a discussion took place regarding the abovementioned subject.

A motion was moved and it was resolved to make a submission taking into consideration the Environmental Impact Statement prepared by the Roads and Maritime Services.

Our Association believes Option 1 would be the most feasible option and therefore supports construction of the bridge replacement as per Option 1 which is aligned with Old Bridge Street.

Thank you for giving this Association the opportunity to make a submission regarding the new bridge and it is hoped construction can commence as soon as possible.

Yours faithfully,

Lola Johnston
Hon. Secretary
For and on behalf of the
Pitt Town Progress Association Inc.
