RE: WINDSOR BRIDGE REPLACEMENT.

Dear Sir,

We would like to voice our opinion, (for the first time), that we feel the new Windsor Bridge, & road to & from, should be re-routed around the town of Windsor & not through it.

A. Bridge & road through Thompson Square would spoil the historic look of Windsor & create more traffic noise & congestion.

We have lived in the district for nearly 50 years & have seen a huge increase in traffic. A bridge & road outside the town area would be sensible for the future as could be more easily widened for future traffic demand.

We hope you will take this idea into consideration.

Yours faithfully,

JACK & SALLY MCGEADY
