Dear Sir/Madam

YOUR REF: SSD 9211. MUDGEES HOSPITAL REDEVELOPMENT

I wish to comment on the lack of car parking spaces for the new hospital at Mudgee. I feel that such a large development would require a lot more than 127 car parking spaces. Staff alone would need more than 127 spaces. Patients and visitors need parking space in the hospital grounds so they do not have to park in surrounding streets and cause problems for local home owners.

I have seen, at Repean and Katoomba hospitals, the problems to patients, visitors and homeowners in the area around these hospitals due to lack of on-site parking.

In Mudgee there is not much public transport so patients, visitors and staff have to drive and park at the hospital.

Therefore I think that the car park should be extended because 127 car spaces will be insufficient.

I request that the size of the car park be reviewed and enlarged.

Yours sincerely
H. Williams
