Dear Mr Gibson

RE: CAMPBELLTOWN HOSPITAL REDEVELOPMENT STAGE 2, TERRY ROAD, CAMPBELLTOWN (SSD 9241) NOTICE OF EXHIBITION

I refer to your email dated 27 August 2018 regarding public exhibition of a Development Application for Campbelltown Hospital Redevelopment Stage 2 (SSD 9241), located at Terry Road, Campbelltown in the Campbelltown Local Government Area.

A Statement of Heritage Impact (SOHI) prepared by Biosis (26 July 2018) submitted as part of the Environmental Impact Statement (EIS) for the application suggests that:

- there are no items listed on the State Heritage Register (SHR) located within the project site area
- there are no SHR items located within the vicinity of the development proposal which may be indirectly impacted by the works

Therefore, it is considered no comments are warranted in relation to built heritage issues. However, the following condition is recommended in light of the low archaeological potential identified in the study area:

If any archaeological relics are uncovered during the course of the construction, all work shall immediately cease in that area and a written assessment of the nature and significance of the resource, along with a proposal for the treatment of the remains shall be submitted for the approval of the Secretary, Department of Planning and Environment and the delegate of the Heritage Council of NSW.

If you have any questions regarding the above matter, please contact Emmanuelle Fayolle, Senior Heritage Assessment Officer at the Heritage Division, Office of Environment and Heritage on (02) 8837 6319 or Emmanuelle.Fayolle@environment.nsw.gov.au.

Yours sincerely

Rajeev Maini
Senior Team Leader
Regional Heritage Assessments South
Heritage Division, Office of Environment and Heritage
As Delegate of the Heritage Council of NSW
21 September 2018
