Attention:
Director, Mining and Industry Projects

Sir,

I wish to present my very strong objections to Shenhua Watermark EIS.
I have not made a donation to a political party and I agree with the privacy policy.

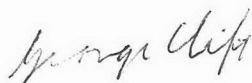

The only important needs in the whole world to maintain civilization are pure air, pure water and pure soil.

At this point of time, looking back at the mining results in the world this has not been achieved.

As it stands now which is obvious to the greater population of this planet all the favours are for money hungry politicians, civil servants and company maniacs.

I am a senior citizen of the Liverpool Plains Namoi Valley and speak for a major percentage of the community which totally oppose mining in rich agricultural areas, destruction of the soils and water of this all too valuable food producing area by Shenhua, BHP Billiton and any other mining company.

Thank you,

A handwritten signature in cursive script that reads "George Cliff".
