Attention: Director Mining and Industry Projects  
Re: Watermark Coal Mine  
App No.: SSD – 4975, Watermark Coal Project

We have not made a reportable political donation.

We have read the Department's Privacy Statement and do not agree to the Department using my submission in the ways it describes.

We are a member of the Caroonna Coal Action Group. I object to the proposed Shenhua Watermark Coal Mine at Breeza NSW. I have reviewed the submission prepared by Earth Systems for the Caroonna Coal Action Group (CCAG) and I am writing in support of the CCAG submission.

We have a number of concerns with the development such as mine blast noise and pollution, loss of property values, potential to contaminate our water supplies, effects on infrastructure due to blasting and movement of earth, general disruption to our harmonious living environment, dust and noise created by large mining machinery. We live in close proximity to the proposed mine and are very concerned with the detrimental effects this project would have on our farming operations and our living conditions.
