Western Sydney Stadium Concept Proposal and Stage 1 Demolition.  
Application No. SSD 7534

Statement in Support or Objection: Objection to the proposed demolition of the current complex. It's capacity already seats in the vicinity of 26,000 spectators. The grandstands have no structural floors and are architecturally cutting edge concrete design.

Reason as to why: Parramatta Stadium is a state of the art, modern, picturesque, facility located 25km west of the Sydney CBD. It was built in 1986 a gift from the then Labour Government to its core heartland voters the working class battlers who longed for something better than the then derelict Cumberland Oval.

It was renamed Pirtek Stadium in 2007 or there abouts sometime after the former Manager of the failed Parramatta Football Club failed to convince the Parramatta Park Trust to sell the entire facility to the Leagues club. This resulted in most home games being moved to Stadium Australia. After being deposed by a boardroom coup this Manager then gained a seat on the Park Trust and subsequently commercialised the non for profit organisation as a matter of self interest and ego. This seat on the board was consequently filled by a compromised un impartial family member to deflect aspersion or investigation of this person who no doubt has motivations to retake control of the leagues club as the opportunity has now arisen.

The light towers are 4 piece steel tubular sections with a platform atop each at the light head. All 4 are in as new condition and are available for relocation to Liechardt Oval which was left out of the Stadium upgrade planning as the Tigers club is now controlled by the Western Suburbs club who would prefer to play out of Orana Park.

This is demonstrated by the current coach ability to stay in the job whilst sacking the NSW representative rake the same as occurred as at the Bears in the 90's. Coach will lose his job the result. Lobbied by the Billionaire soccer club owner/s the Government finally caved into this

taxpayers pressure and approved the plan for a Purpose built soccer ground facility with a mosque to be built on the memorial swimming pool site.

Declaration of Political Donations;

Parra:Hardie Building Products, Asics , Chrysler Jeep

Manly:Wormald,Pepsi,Kaspersky Lab, Penn Medical

Balmain:Phillips,Meriton,Brydens

Norths:Citibank ,NRMA.

Minister For Planning& Infrastructure  
NSW Government Parramatta Park.

Per:  .....

Please Note:

The Bulldogs upgraded there own facility at Belmore at their cost entirely in preference to playing out of either Stadium Australia or the Dunc Grey Veledrome facility.

The Dragons spent a mint on the grandstand at Jubilee only to have it's night game coverage sow up the ground lighting inadequeties.

Souths want Redfern upgraded though they play out of the SFS just like Easts.

Manly is majority Privately owned yet some how winds up with Liechardts share.The only upgrade Tiger town had was the excess seats from Stadium Australia aft its capacity was reduced after the Olympics. Balmain Boys don't cry but they would if they saw this stuff going on.

The Panthers Stadium is the same as Parras so it shouldn't belong before they want an upgrade aswell. No instead they intend to move there home games to the new Soccer,Football Stadium at Parramatta.

That's Souths,Balmain,Newtown,StGeorge,Norths gone go play somewhere else.
