Dear Director,

Submission: Australian Technology Park Redevelopment (SSD 15_7317)

I wish to make a submission on the Environmental Impact Statement provided by Mirvac for the redevelopment of Australian Technology Park. I am concerned about damage to the nationally significant heritage, the transport implications, poor public access, commercialisation of public space, and impact on local residents.

This NSW govt is selling everything it can and when it is done with there will be no green spaces, no historical buildings left that have a connection with the past. Selling this area to a developer is just another gig for Govt mates, with no thought of the people who live and work in the area. We need green space in the city, its hot enough with all the buildings and we need less sky scrappers here they take away from the beauty of the space there. Just like most of the things this government does, they say they are doing things for the people of NSW but it is very obvious they are only doing things for the top income earners of the state, no one else.

Yours sincerely,

Heather Goodman
