Dear Director,

Submission: Australian Technology Park Redevelopment (SSD 15_7317)

I wish to make a submission on the Environmental Impact Statement provided by Mirvac for the redevelopment of Australian Technology Park. I am concerned about damage to the nationally significant heritage, the transport implications, poor public access, commercialisation of public space, and impact on local residents.

As the name of this area states, it is a 'Park' not a space to be used for high density commercial purposes. This area is fast reaching an overcrowded future with little or NO public amenities and infrastructure being built to cater for the thousands of extra workers. This large scale commercial building would be best built at Homebush, Parramatta or Green Square where larger commercial industries are more suited as they have public transport and the space allowed for such large scale buildings.

Yours sincerely,

Luke Atkinson
