Dear David,

Modification Request for The Ribbon, Darling Harbour, Design Modifications and Extension of Construction Hours (SSD 7388 MOD 6) – 31 Wheat Road, Darling Harbour

Thank you for your correspondence dated 16 April 2018 regarding the above.

I note the amendments include a request to allow construction works (with the exception of high noise generating appliances) to take place between 12 midnight and 6.00am Mondays to Saturdays inclusive. When taken together with the currently approved construction hours, this would allow works to occur 24 hours a day, 6 days a week.

The City strongly recommends that this request is refused to allow some respite to sensitive receivers surrounding the site.

Should you wish to speak with a Council officer about the above, please contact Philip Jamieson, Senior Planner, on 9265 9333 or at pjamieson@cityofsydney.nsw.gov.au.

Yours sincerely,

Graham Jahn AM
Director
