CC: "w2balliance (SKM)" <w2balliance@globalskm.com>

Dear Sir/ Madam

In response to your recent display and discussions at Memorial Hall Woodburn please accept my submission below:

1. I property owner and resident of 245A, Evans Head Rd Doonbah NSW 2473.
2. My postal address is 245A, Evans Head Rd Woodburn NSW 2472
3. I have following issues to related to the highway upgrade in addition to or including those I discussed with your representative in a meeting with your staff at Woodburn Memorial Hall Woodburn NSW 2472.
 - Water flow from northern end of the my property to further north needs consideration. The water from my property flows out to north and should not be blocked due to highway upgrade or activities involved in upgrading process. Proper drainage facilities at southern side of the highway therefore needs to be included in the plan.
 - My property is defined as rural residential and therefore prone to noise pollution irrespective of cleared or uncleared land. Therefore effective steps to control of vibrations, noise, air pollution must be taken from the boundary of my property.
 - Weeds are spreading and seed-bank is developing in the block acquired by RTA next to the boundary of my property and needs immediate attention and future consideration.
 - This area is full of Kangaroos and other wild life needs consideration for being trapped on one side of highway thereby increased damage to crops and property and effect of wildlife therefore.
 - As per legal requirements, fence line between two properties needs to be maintained. The current fence between our property and RTA property is in dilapidated conditions due to heavy rains and flooding in these years needs urgent attention.

I hope these points will help you in considering environment plan and management of the section of the highway property.

Regards

Thank you for your email.

Unfortunately, the Department of Planning and Infrastructure has since advised Roads and Maritime Services that they not accept submissions from a third party and that submissions have to be sent directly to

the department.

Please send this submission directly to plan_commet@planning.nsw.gov.au

Please do not hesitate to ring or email us if you have questions. Please note today is the deadline for submissions so please forward this email to them today.

Thanks a lot

Regards

josie

Environmental Impact Statement

Woolgoolga to Ballina upgrade - Environmental Impact Statement on display.

The Environmental Impact Statement (EIS) is now on display for community comment. The EIS has been prepared to seek planning approval to upgrade the highway to four-lane dual carriageway (two lanes in each direction).

The EIS also includes detailed information relating to noise, heritage, ecology, access, agriculture, socio-economic and flooding impacts associated with the proposed upgrade.

The EIS is on display for community comment between **Wednesday 12 December 2012** and **Monday 4 February 2013**.

How to make a submission

Your comment on the proposed Woolgoolga to Ballina upgrade is welcome and should be made based on the information contained in the EIS report and working papers.

Full EIS reports are also on display at selected RMS offices and other locations.

Comments and submissions should be made via:

- **Online** - <http://majorprojects.planning.nsw.gov.au/>
- **Email** - plan_comment@planning.nsw.gov.au
- **Fax** - (02) 9228 6355
- **Post** - Major Projects Assessment,
Department of Planning and Infrastructure,
GPO Box 39,
SYDNEY NSW 2001

Comments and submissions made during the EIS display period will be considered by the Department of Planning and Infrastructure as part of the planning assessment process.

For information on display locations and dates and times for information sessions please visit the [Woolgoolga to Ballina project website](#).
