Hi Jack

As per my email of 23/2/2018 to your Anthony Ko the EPA has responsibilities for pollution control and environmental management for scheduled activities under the *Protection of the Environment Operations Act 1997*. Based on the information provided the proposed activity is not a scheduled activity under the *Protection of the Environment Operations Act 1997* and the proposed solar farm does not require an Environment Protection Licence. Under the *Protection of the Environment Operations Act 1997* Temora and Junee Shire Councils will be the Appropriate Regulatory Authority for pollution control and environmental management issues for this proposal should it be approved.

On this basis the EPA has no further comments to make in relation to this proposal, and requires no further consultation in relation to this application.

If you have any further enquiries about this matter please contact me by telephoning 02 6969 0700.

Thanks
